SUBJECT INDEX

Adhesive coated yarns for reinforced substrates, p. 70
Adhesive inflatable craft fabrics, p. 250
Aerospace reinforced substrates, p. 70
Aftertreatments to lower formaldehyde release, p. 216
Air flow parameters, upholstery fabrics, p. 184
Aluminum dichlorhydroxide, p. 50
Boat construction, p. 70
BOCS system, p. 70
Breaking strength, cotton & cotton/glass yarns, p. 86
Breaking strength, treated yarns, p. 12
Carbon fiber composites, p. 206
Ceramic textiles, p. 97
Cigarette smoldering test, furniture materials, p. 184
Coagulation process, p. 166
Coated fabrics, experimental response, p. 144
Coating-control, rotary screen, p. 35
Coatings, urethane oligomers, p. 2
Construction techniques, inflatable craft, p. 250
Cotton fabrics, resin finished, p. 50
Cotton-glass fiber, outdoor fabrics, p. 86
Cotton/kevlar blends for outdoor fabrics, p. 59
Crosslinked cotton, p. 216
Detergent effectiveness, oily fabric soils, p. 12
DMDHEU, p. 50
Durable press ratings, p. 50, 216
Electron microscopy, laundered fabrics, p. 24
Energy conservation, fabric sizing, p. 258
Energy conservation, resin treated durable press, p. 50
Fabric design factors in inflatable craft, p. 250
Fabric markets, carbon fiber, p. 206
Fabric reinforced composites, biaxial response, p. 144
Flammability of footwear materials, p. 239
Flammability resistance, treated yarns, p. 86
Footwear materials evaluation, patent & leather vs. porvair & clarino, p. 239
Footwear, synthetic materials, p. 126
Footwear, United Kingdom, p. 126
Formaldehyde release, resin finished fabrics, p. 50, 216
Gore-tex PTFE films, shoe uppers, p. 161
Industrial fabrics, p. 70, 108
Inflatable craft, fabric design factors, p. 250
Laif poromerics, p. 228
Laundered fabrics, oily soil residues, p. 24
Leather splits, coated, p. 166
Levacast process, p. 166
Lightweight cotton-content outdoor fabrics, p. 50
Methylolamide agents, p. 216
Micro-porous PUR films, p. 166
Nextel ceramic fiber, p. 97
NOPCO air flow apparatus, p. 184
Oily soils, laundered fabrics, p. 24
Open-end yarns, p. 12

SUBJECT INDEX

Air flow parameters, upholstery fabrics, p. 184
Aluminum dichlorhydroxide, p. 50
Boat construction, p. 70
BOCS system, p. 70
Breaking strength, cotton & cotton/glass yarns, p. 86
Breaking strength, treated yarns, p. 12
Carbon fiber composites, p. 206
Ceramic textiles, p. 97
Cigarette smoldering test, furniture materials, p. 184
Coagulation process, p. 166
Coated fabrics, experimental response, p. 144
Coating-control, rotary screen, p. 35
Coatings, urethane oligomers, p. 2
Construction techniques, inflatable craft, p. 250
Cotton fabrics, resin finished, p. 50
Cotton-glass fiber, outdoor fabrics, p. 86
Cotton/kevlar blends for outdoor fabrics, p. 59
Crosslinked cotton, p. 216
Detergent effectiveness, oily fabric soils, p. 12
DMDHEU, p. 50
Durable press ratings, p. 50, 216
Electron microscopy, laundered fabrics, p. 24
Energy conservation, fabric sizing, p. 258
Energy conservation, resin treated durable press, p. 50
Fabric design factors in inflatable craft, p. 250
Fabric markets, carbon fiber, p. 206
Fabric reinforced composites, biaxial response, p. 144
Flammability of footwear materials, p. 239
Flammability resistance, treated yarns, p. 86
Footwear materials evaluation, patent & leather vs. porvair & clarino, p. 239
Footwear, synthetic materials, p. 126
Footwear, United Kingdom, p. 126
Formaldehyde release, resin finished fabrics, p. 50, 216
Gore-tex PTFE films, shoe uppers, p. 161
Industrial fabrics, p. 70, 108
Inflatable craft, fabric design factors, p. 250
Laif poromerics, p. 228
Laundered fabrics, oily soil residues, p. 24
Leather splits, coated, p. 166
Levacast process, p. 166
Lightweight cotton-content outdoor fabrics, p. 50
Methylolamide agents, p. 216
Micro-porous PUR films, p. 166
Nextel ceramic fiber, p. 97
NOPCO air flow apparatus, p. 184
Oily soils, laundered fabrics, p. 24
Open-end yarns, p. 12

Outdoor fabrics, p. 59
Polyacrylates, p. 258
Polyester, vinyl coated, p. 108
Polymers as sizing agents, p. 258
Polyurethane patent leather, manufacture & properties, p. 138
Polyurethanes, p. 2, 258
Poromerics in footwear, p. 228, 239
Porvair, p. 239
Porous PU films and coatings, p. 166
PTFE films, p. 161
PU coagulation process in PUCF's, p. 175
PU coated fabrics in footwear, p. 126, 228
P.U. coating, rotary screen, p. 35
PU patent systems: quality, fastness, physical test methods, p. 138
PVC coated fabrics in footwear, p. 126
Quality factors, PUCF's, p. 175
Radiation curing, p. 2
Rapid cure catalyst, p. 50
Refractory textile products, p. 97
Reinforced films, p. 70
Reinforced substrates for industrial fabrics, p. 70
Resin finishing, p. 50
Ring-spun yarns, p. 12
Rip-stop cotton blend, outdoor fabrics, p. 59
Rotary screen coater, p. 35
SATRA test, Gore-Tex shoe material, p. 161
Separating force, coating techniques, p. 35
Sizing agents, polymers, p. 258
Smoldering test, furniture materials, p. 184
Smolder performance, pu foams, p. 184
Synthetic leather, p. 239
Thermal catalysts, p. 2
Ultra-suede, characteristics, colors, stain tests, p. 120
Ultra-suede, styling & commercial applications, p. 120
Urethane oligomers, p. 2
UV curing, p. 2
Vinyl coated polyester industrial fabrics, p. 108
Weathering behavior, vinyl coated fabrics, p. 108
Yarn-coating debonding, fabric reinforced composites, p. 144
Yarns, abrasion resistance, p. 12
